1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10 August 2004 has been entered.

REASONS FOR ALLOWANCE

2. Claims 1-29 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "an absorption-type polarizer" as set forth in the claimed combination. Claims 3-5 are also allowable based upon their dependence on claim 1.

Claims 2 and 6-29 are allowable based upon the reasons provided in previous office actions.

The prior art of record, Ouderkirk et al and Sanelle et al teach an optical path changing polarizer with a repetitive prismatic structure on a side of a reflective polarizer. However, the prior art does not teach an absorption-type polarizer and there is no motivation or teaching to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
